Date: 22 Oct 2010

Ref: 10-001

Subject: LDV & LDC Product Model Name Change Notification

Please be informed that product model names stated as below have been changed.

Current Product Name	New Product Name
<u>LDC</u> 12-18-R70	<u>ALC</u> 12-18-R70
<u>LDC</u> 12-36-R35	<u>ALC</u> 12-36-R35
<u>LDV</u> 12-12-1R0	<u>ALV</u> 12-12-1R0
<u>LDV</u> 12-15-R80	<u>ALV</u> 12-15-R80
<u>LDV</u> 12-24-R50	<u>ALV</u> 12-24-R50

The purpose of the product model names change is to standardize with our TDK-Lambda Corporate product series name. Taking this opportunity, to add in PSE safety mark and improve on the input & output wire insulation.

We are pleased to inform that the above change will be implemented starting from February 2011 shipment. Existing product (LDC/LDV) will be gradually phased out and new product (ALC/ALV) will be phased in.

We assure you that the quality of the products remain the same with our QC and QA system in place. See attached for detail of the differences.

We apologize for any inconvenience caused.

If you have any further information to clarify, please feel free to contact your respective Sales Team.

Yours faithfully

Mr BK Neo
Product Marketing Manager
